12/6/76

dear george,

the art department did not follow instructions on the corrections beginning on p.302 but i worked it out by making that space up by cutting white space out of a document.

temporarily i am down to one hand, which accounts for this typing and my using tape instead of the waxer.

appreciate it if you take a look at the enclosed pp. 311-2 to be certain my burnishing is okay and that no shadows will show.

carolyn told me you saw the wrong reduction on p. 303 when she spoke to you.

that and these two pages are it.

sincerely
